Conference Invitation

Strengthening the Rule of Law: Innovative Educational Approaches

Dear Colleagues,

DTI University, Dubnica nad Váhom, Slovakia, is delighted to invite you to participate in the international scientific and professional conference Strengthening the Rule of Law – Innovative Educational Approaches. At the conference, a unique space for knowledge and experience exchange, as well as for open discussions between experts and professionals on the topic of strengthening the rule of law from diverse aspects, will be provided to participants.

The conference aims at academic and scientific workers, teachers, doctoral students, and all those who deal with the issues related to strengthening the rule of law. The professional section is open to practising teachers and teacher trainees to share examples of good practice and discuss innovative approaches to teaching about the rule of law, especially at the secondary level of education.

We accept papers written in Slovak, Czech, Polish, Hungarian, and English. As conference outputs, a reviewed book of proceedings and a handbook for teachers, including examples of good practice and innovative teaching methods, will be published. Selected papers written in English will be offered for publication in the reviewed scientific journal Acta Educationis Generalis.

The conference is organised as part of the International Visegrad Fund Project “Strengthening the Rule of Law through Innovative Pedagogical Approaches” (ID: 22410198).
